

The background features a soft-focus digital theme. On the left, there are yellow and orange geometric shapes, including a gear and a stylized person icon. On the right, there are faint blue and white code snippets such as 'data[] = ne', 'data[] X = S', and 'g(data/X)'. A hand with pink nail polish is visible in the bottom right corner, holding a black pen and resting on a laptop keyboard. A circular icon with a shopping bag is also present in the lower middle section.

CHRISTIAN LIFE ACADEMY
ONLINE EDUCATION
OPTION

Christian Life Academy is committed more than ever to providing high quality academic training in an environment where the Lord Jesus Christ has pre-eminence in all things. We are still committed to supporting Christian families by providing a Biblically based education that develops individual academic excellence. We seek to form young men and women who will know and serve the Lord Jesus Christ with all their heart, mind and strength. We still desire to exert the greatest possible influence on our students so that they might fulfill God's highest purpose in their lives; participating in the transformation of families, communities, institutions and nations for the glory of God.

Our Purpose, Mission, and Vision have not changed, but sometimes the Lord guides us into new ways to accomplish them. New for the 2020-21 school year, Christian Life Academy has instituted an Online Education Option.

We now have live online classroom capability, so that we can teach a student in the classroom and online simultaneously! This gives our families the most flexibility and options to choose from; along with the assurance of a solid Academic Christian Education with teachers you know and can speak with personally.

TUITION COST FOR BOTH PLANS:

KINDERGARTEN: \$2,995.00 Includes
4 full days of school.

*If the Kindergarten child is the 2nd
child enrolled, the cheaper rate
would apply.

GRADES 1-12:

First child – \$4,500.00
Second child – \$2,250.00
Third child – \$1,125.00
Additional children – \$0.00

*No Online - PreK option

Tuition Aid Available

OPTION 1: In School Classes

This option gives you the most flexibility. Your child will come to class 5 days a week as normal. However, this option allows for temporary online schooling. Here is how it works....

If your child is not able to come to school on a particular day, but still able to participate online that day, you will notify the teacher as soon as possible and no later than 7:30 am that morning. Your child will then join the online classroom from home or wherever they are. If your child does not participate in person or live online they will be counted as absent and an excuse will be necessary.

The class schedule would follow the regular daily schedule, with a few exceptions and occasional break times. The teacher will record their teaching sessions. You can access the sessions after that particular class is over and do the work at your own pace when participating live online is not possible.

We will be using Microsoft Teams which is very secure and training will be available. All online work will be distributed and returned electronically. You may need to download, print, scan, take a photo, or fill in electronically and send back to the teacher for grading.

This option means that you are choosing to keep your child home full-time. You will join the class via online. This will follow our regular daily schedule with a few exceptions and occasional break times. If you are unable to participate online on a particular day, you will notify the teacher in advance whenever possible or in the morning by 7:30 am.

The teacher will record their teaching sessions. You can access the sessions after a particular class is over and do the work at your own pace when participating live online is not possible. You will be counted as absent if not able to participate live and an excuse would be necessary.

Again, we are using Microsoft Teams which is very secure and training is available. All online work will be distributed and returned electronically. You may need to download, print, scan, take a photo, or fill in electronically and send back to the teacher for grading.

OPTION 2: Online Classes
