The goal of Christian Life Academy is to equip students academically and to disciple them to be followers of Jesus Christ. We believe that the Christian school is part of a threefold effort along with the home and the church. It is therefore vital to us that families not only attend church but to be actively involved in the ministry of the church and service to the body of Christ. We appreciate your ministry to our community and encourage you to be candid in your completion of this information. Our hope is that this family will be strengthened in the Lord Jesus Christ because they belong to an evangelical church and a Christian school. Thank you for your time and consideration in completing this questionnaire.
